

Samantha Sieler, Junior

Application for **Secretary** of National Honor Society

I believe that I am qualified for secretary of the 2018-2019 chapter of Monroe High School National Honor Society because I have advanced leadership qualities. I have experience in multiple leadership positions such as captain of the varsity soccer team and also a TFT Leader elected by my teacher. Not only do I possess leadership qualities but I'm also responsible and dependable. From getting my hours completed and turned in on time to encouraging others to become leaders, I believe I am equipped with the characteristics that a leadership role in NHS requires.

I believe that National Honor Society can do so much more than it already does. In the period that I'm in office I would like to see more drive and participation from members to make that possible. Creating more opportunities for volunteer work will make members much more active, not only in our chapter of NHS but also in the community. Igniting leadership qualities in students today will allow them to grow and help others to improve our community as a whole. This goes beyond just our generation, it brings hope to the generations before us and inspires the generations to come after us.
